Subject: FW: Hanford & FY17 bill

Some good news from Senator Murray's office regarding yesterday's events... The Omnibus was needed because of new activities not covered by a continuation of the 2016 budget through the continuing resolution. As you will note in Jo Eckert's message below, there is an increase of \$10 million to \$24.7 million in "Community & Regulatory Support" (I believe that is what is referred to as "PBS-100" or "RL-100") – *potentially* good news for PILT jurisdictions. If I am correct in my supposition, that should give RL the budget coverage it needs – or very close to it – to satisfy 2017 PILT obligations to all three counties.

I will follow-up with Jo and others for detail.

Subject: Hanford & FY17 bill

All,
Last night, an agreement was reached on a path forward for the remainder of the FY17 budget. The agreement comes in the form of an FY17 Omnibus (11 full bills).

Sen. Murray is very pleased to share with Hanford stakeholders that the FY17 Energy and Water bill includes a total of \$2.338 billion for Hanford cleanup (this figure doesn't include RL's share of Safeguards and Security). The final bill holds the Senate mark which increased the RL cleanup budget by \$114 million and fully funded the ORP budget. A full breakdown of the RL and ORP lines are below. You'll notice that the Central Plateau and Tank Farms accounts have increased in comparison to the original Senate mark, this is to account for the RL and ORP infrastructure recapitalization needs which DOE included in a new line (Infrastructure Recapitalization) which the final bill zeros out.

We have more work to do as this agreement must still be passed by the House and Senate by Friday, May 5th when our current short-term CR runs out. In addition, we have more work to do to support Hanford in FY18, but today is a good day!

Please give me a call if you have any questions.

Best, Jo

\$2.338 billion for Hanford cleanup

- **\$839.76 million for Richland Operations**, an increase of \$114 million above FY17 budget request (under President Obama)
 - \$143.755 million for River Corridor and Other Cleanup Operations, \$74 million above FY17 budget request (under President Obama)
 - \$659.818 million for Central Plateau Remediation, \$38.949 million above FY17 budget request (under President Obama)
 - \$24.701 million for Richland Community and Regulatory Support, \$10 million above FY17 budget request (under President Obama)
 - \$11.486 million for Containerized Sludge Removal Annex
- **\$1.499 billion for Office of River Protection**, equal FY17 budget request (under President Obama)
 - \$733.965 million for tank farm activities
 - \$3 million for WTP commissioning
 - \$690 million for the Waste Treatment Plant
 - \$73 million for low activity waste pretreatment plant
