

TerraFusion Intelligence Preview

PREVIEW · offline-safe

TerraFusion helps people understand **what matters**, **why it matters**, and **what to do next**. Three quick looks: a property, a problem, and an action.

- 1

Atlas

— What should I know about this property?

A property dossier that leads with the signals that decide the parcel, says what they mean in plain language, and ends with the next action.

[Open a property dossier](#) [See it at county scale →](#)
- 2

Academy

— How would an experienced professional approach this?

A Codex of real assessment problems — each teaching how an expert thinks, not just definitions — plus an Ask that answers without guessing.

[Browse the Codex](#) [Ask Academy →](#)
- 3

TerraFusion OS

— What should my office do next?

Every property read and every method ends in a clear "Now What." County Pulse is where that intelligence becomes the office's operational next moves.

[Open the operational briefing](#)

TerraFusion Intelligence Preview. Demo data is illustrative; methodology is real. Runs without internet, database, or live AI.
