Subject: PILT 2018 -- Payment Received

The Treasurer received a check from the Department of Energy today in the amount of **\$5,823,617.12**.

Per our Settlement Agreement with the DOE, October 31 is the deadline for receipt of PILT payments.

We invoiced the Department in April in the amount of **\$9,250,029.00**.

We were advised during the year by DOE staff that the Department believed they would be able to pay 60-62% of that invoiced amount. The amount received today is about 63% of the original \$9.2 million.

I will be preparing a simple letter of acknowledgement to send to DOE-RL noting receipt of payment but also noting the deficiency. I will also be informing our stakeholders and Congressional liaisons.

My goal and yours is to receive 100% remittance each year going forward. I believe the modified approach to PILT that we have developed in-house will put us a good position to reasonably expect DOE making good on their part of that goal. I'd like to thank Bill Spencer in particular for his part in putting us on that path.

All for now.
Adam
